## BACK END DEVELOPER

---

As a back-end developer with a focus on Node.js, I am passionate about creating high-performance, scalable web applications. Although I am relatively new to the field and have not yet gained professional experience, I have been dedicating my time to learning and developing my skills through personal projects. I have built several applications using Node.js, including [To-do APP, Notes APP , Weather APP], which have helped me develop a solid foundation in back-end development concepts, as well as practical experience in using Node.js and related technologies (JavaScript , HTML , CSS) .
